Hi Rob,

It's been a while, I hope all's well. I wonder if you think there is any chance Nikki might be able to give us a perspective on the efforts to get products like this off the streets in SC? I've been communicating with SLED and DHEC, but am having trouble getting someone on camera to talk about the new upcoming list DHEC plans to present to the legislature that MAY include this so called "legal weed" incense, being smoked by teens in SC. Here is a link to the investigation I did with some compelling video. We are also attempting to drive there next week and get an interview with the AG. Wanted to get your take too.

Thanks so much!
