

# Attention!

## Not only for Niagara County Residents

This is in regards to a little girl who lives in Niagara Falls, NY. She is an eight year old who was diagnosed with a brain tumor then stage 4 cancer in October of 2013. Her journey has been long and very hard, but she was never alone. I want you to imagine this is your child. Five hospitals, many tests, treatments, jabs, pokes, bad reactions to medications, and pain. As a result of a bad reaction, she now has seizures on top of everything else. Now they have to wean her off medications. Cannabis oil has been proven to help with certain kinds of cancer. It has also been proven to help with pain and seizures. But our children of Niagara won't have this oil available for approximately 18 months. There are children who could have used this and possibly survived. Help her survive! I want you to imagine your child screaming in agony everyday. It takes a bit of your heart with every cry, and morphine can only do so much. I ask you wouldn't you want to do whatever you could to help your child? I know I would.

I would also like you to be aware that there are no Children Hospices in Niagara County. Is there one in your county? So the choice; as parents, we assumed we had and never wanted to think of isn't available here. Your precious little one will have to stay in a hospital. Please do not get me wrong, it takes special people to HELP our children and they do whatever they can, but as uncomfortable as it is, I want a choice. Don't you want a choice?

**Make a Wish Foundation has shown support. Mr. John Cena took time to meet with my little friend and we Thank you. You are a hero in our eyes! Buffalo Sabres took time to have a tea party with the sister of the little one. We thank them also. Our community had come together for a benefit. Thank you to all of those who helped make a difference. All donations and help were heart filled and felt. Thank you. We ask that you continue to pray. A friend even rescued a horse in her honor.**

**The reason I am sharing her story with everyone is she needs this oil and as citizens, and parents, it is our job to fight for her and the hundreds of other children going through this. Please help get the word out. We need this NOW!!!!**

9-29-14.

Honorable NIKK Haley

Hello

The governor <sup>of</sup> my State, State N.Y., is trying  
So hard to get med-cannabis available sooner  
than later. He realizes, he gets how much  
it would mean to thousand across our  
State. Hes trying to get the oil expedited  
from another State. One who knows  
ins and outs and willing to help - New York Residents.  
Oh Honorable NIKK Haley, is this <sup>Hint! Hint!</sup> You? My friend sure  
could be alot more comfortable with <sup>Her</sup> name  
And how many Children Hospices do you have <sup>Miss Donna Nocce</sup>  
in your State? Please get back to me  
regarding medication + Hospice, And  
if you chose to get on board its for  
that little girl in NF; youve been hereins  
so much about!

Thank you for your time, help, I'm really looking forwards to hearing  
from you! Each day is like 20 to someones who ill

Darlene E Irish - Help N.Y. Please <sup>USA</sup> 11,636 Children get Cancer  
Every year
