Governor Niki Haley  
Office of Governor  
1205 Pendleton St.  
Columbia, SC 29201

Dear Governor Haley:

My mother, Susanne Patterson, SCDHHS 100191525, Social Security #249504522 is 93 years old and in the final stages of dementia, untreatable lymphoma cancer and severe congestive heart failure. She is a poor lady in rural Eastover. I have completed paperwork over 6 months ago for Medicaid for my mother and her case is still pending. She falls down constantly, hallucinates night and day and need around the clock supervision. She is unable to do anything for herself and cannot be left alone. I have begged the social worker and everyone I know to please help me with her. Everyone says she must be on Medicaid.

However, in the meantime, my Mother lacks necessary care that I am not able to provide her because I am 70 years old suffering from heart and knee ailments. She is suffering severely because we are simply not able to care for her any longer. No one this age should have to suffer like this because they lack finances for a care facility because their paperwork has been pending for 6 months. Can you all please help me get her on Medicaid so she can go into a nursing facility and get the necessary help she needs?

Thanks,

Robert Patterson
