---

Sounds good.

Here's what we sent yesterday. When the press calls me and asks about Monday's event and tomorrow's event with the Governor, I will certainly be very encouraging that people should attend both sessions - and I don't think having options will necessarily be a bad thing either.

Thank you for what y'all are doing.

Thomas

Sending this as info. We are working as quickly as we can to finalize this program in an attempt to assist our constituents. Date and time have been set; we are now working on finalizing the program. Please share as you see fit, especially with your councils and boards, as I do not have good e-mail addresses for everyone.

Thanks,

Thomas

**Subject:** SUMTER FLOOD RECOVERY MEETING, MONDAY 10/19/15  
**Importance:** High

All,

In the wake of the recent flood and all of the questions and concerns that are circulating in our community in its aftermath, the Sumter County Legislative Delegation has been busy coordinating an informational meeting which will hopefully prove helpful to the general public. We plan on hearing from officers representing various agencies that will have important roles in the coming months as we rebuild and recover.

We appreciate City Manager Deron McCormick and Sumter City Council making the Opera House available for this open meeting, which will commence at **5:00pm on Monday, October 19<sup>th</sup>, 2015 (at 21 N. Main Street in Sumter)**.

We have representatives from the SCDOT, SCDHEC, and the SC Department of Insurance already confirmed to attend this meeting. We are working on having a FEMA representative present, and we are coordinating that through the Department of Insurance. Additionally, we anticipate having representatives from SCDSS and the Lt. Governor's Office on Aging there as well.

Please share this as you see fit. We certainly want all elected officials in Sumter and the surrounding counties which have been affected by the flood to be aware of this community gathering in the hopes that valuable information will be gained and shared with others.

Please do not hesitate to contact me should you have additional questions or concerns, or if you have an idea that might benefit or add to this meeting.

Thank you—

Thomas
