Subject: Fw: USGBC mtg in late June

Do you want to take this meeting? I'm not sure what they want other than, probably, support for more statutory requirements and/or tax credits.

Hi Danny,

I hope you are doing well.

I wanted to circle back with you to see if we could schedule some time on 6/26, or 27 to meet with you and possibly the LG on the above.

Thank you,

Brandon Peck

Hi Danny,

Good afternoon! We (U.S. Green Building Council) wanted to work with you and the LG to schedule some time to meet late afternoon on 6/26, or sometime on 6/27 to discuss a few critical issues pertaining to building efficiency for SC owned/operated assets.

Attached is an overview of USGBC's LEED footprint to date within the state. The primary focus here is labor earnings generated, the economic activity associated with this renovation/construction, along with the operational savings and resiliency of these structures. The business case for high-performance buildings.

I look forward to working with you to find some time to meet and further discuss. I will have a colleague from USGBC with me also.

Thanks, Danny. See you in Charleston.
