Message:

Governor, The local county council has decided to grow Oconee County via tourism. This may work for Myrtle Beach, or elsewhere, but we don't have much for folks to tour to. In other words there are lakes and the mountains but they only get used in the summer. We need real jobs, something to make a living at, not just getting by. The city of Seneca has more empty buildings than occupied ones. A minimum wage job will not buy a new car, or buy a new house. The local media gets all in a dither when a boutique opens somewhere, but you never hear about their closing in a few months. You have stated you want to help the counties of this state, well we could sure use some help here in Oconee County. Thank you in advance for this opportunity to contact your office.. Stephen Charles..
