**Swim advisories for the Myrtle Beach area do not typically impact Huntington Beach because they stem from storm water runoff into the ocean and Huntington Beach is not affected in that way. That being said, it is always a good idea to call the park before heading to the beach just to be sure you're able to safely enjoy swimming! The advisories can come and go pretty quickly, so I'd wait to contact the park until you're closer to the dates of your stay. They can be reached at 843-237-4440. Let us know if you have any more questions. Safe travels!**

Hello. We will be traveling from Kentucky to myrtle beach for the first week of July. Is there any new info on the swim advisory in the area? We usually go to Huntington Beach. Thank you.
