Hello Governor Haley,

I am at my wits end In trying to understand something. Why on earth does the Highway Dept come out to a dirt road to smooth it over at least twice a month (Lemon Road) and we haven't had our road (Estates Drive) repaved after it was scraped & prepared for tarring for 10 years ago?? Our local people tell me that Estates Drive is a state road & needs to be handled by the state. No one wants to take ownership. I just want it repaved. There is so much traffic on this residential road because of schools nearby & so many potholes that can take no more filling. I walk 7-8 miles a day and this is THE WORST STREET in this county!

Will you please point me in the correct direction so I can finally get a solution to our problem?  
Appreciate your time and keep up the good work!

Sincerely,  
Ann Iademarco
