Dear Governor Haley,

I represent a group of 7800+ concerned citizens, Patriots for America. We have watched what has happened to our nation over the past six years with increasing alarm. This nation is on a collision course with complete collapse.

What we would like to do is have a Round Table discussion with a group of conservative Representatives and Senators, and others. We would like to work with those of you inside the two houses of congress, to formulate a plan to turn the Ship of State back to our founding principles; renew our constitutional republic. America is not now, nor was she ever intended to be, a monarchy. Yet we have a president who thinks he is a king, who can ignore our constitution, ignore our laws, and overspend to the point we are in grave danger of financial collapse. Obamacare may be the final nail in our coffin.

Would you be willing to meet with a group of our delegates, and other members of congress to discuss our concerns? I very much look forward to hearing from you.

Yours truly,
Jean Reno
