Representative Henderson - I am extremely concerned about the refugee resettlement program. According to credible reports coming out of Homeland Security there is no way to vet these people and there are many young men of "military age" in the mix. I do not want these people in Spartanburg, Greenville, or any other place in SC. First of all, Obama created this crisis and secondly there are ways to help these people without bringing them in the United States. Please STOP this resettlement program, congress and this president are putting this nation at great risk by exposing us to people who want to do great harm to this country and our citizens. Isn't it governments' job to protect us? Another issue is Guantanamo. Guantanamo needs to remain open and these terrorists should not be brought to SC or any other place in the United States. This is a national security issue and the consequences will be dire. Have you all forgot 9-11 already?? Sandra Zwolak PS Please contact me about your views on these two issues. Thank you.
