Subject: Weather Alert - Strong Thunderstorms

This morning, a strong cold front is pushing a healthy line of heavy rain and thunderstorms towards the state. Last night, this storm has triggered six tornadoes across Alabama and Mississippi.

- Upstate – Rain is already started across the Upstate and will intensify by lunch with 1-2 inches of rainfall expected.
- Midlands – A strong thunderstorm potential exists for the Midlands after 1 PM with lightning, heavy rain, and strong gusty winds with the possibility of an isolated tornado.
- Lowcountry – The rain will hit the coast around 6pm tonight.
