Message:

This message is being sent as a test of the Capwiz integration with your office's Web form. No response is necessary.

Capwiz (part of the CQ Roll Call) helps grassroots advocacy groups connect constituents with their elected officials and candidates. Approximately 2,000 different associations use our online advocacy tool to contact their elected officials. We send these tests to ensure that our database is in-sync with the latest updates to your form. We have utilized your district address to send this test message through your system to guarantee that we had a correct district-based address. A constituent creates each e-mail sent through our system; the messages are not generated from lists.

If there are any questions about this test or about any of the constituent messages sent through Capwiz, please contact webform quality assurance:
