Yeah. The formatting is terrible.

I asked Elisabeth Kovacs at DEW to confirm those jobs numbers. I always get them from her (and she's the WorkKeys project manager). Copied you on that.

I'm good with the points...although maybe take a look at the formatting of those tables at the bottom.  
Thanks.

Christian,

See the attached points. I saw the 90,000 job seekers with 110,000 jobs figure. I assume that's still roughly correct? Is that from DEW?

Thanks,  
Clark
