Understanding Risk and Protective Factors for Dementia

Dr. Oscar Luis Lopez, MD, Professor of Neurology and Psychiatry, Director of Alzheimer's Disease Research Center, University of Pittsburgh

Program is approved for CE's in PA

- 1.5 Medicine & Nursing
- 1.5 for PA L/CSW, LPC, LMFT, Psychology*

No cost for the first 50 professional CE registrants; \$10 for all others

**SW, LPC, LMFT, & Psych participants must complete the upcoming webinar on Palliative Care with Patients with AD/DRD in a series to earn 3 CE's (1.5 for this one and 1.5 for next one).*

Program supported by Health Resources and Services Administration Grant # U1QHP28736

Course Objectives:

By the end of this presentation, participants will:

- Describe factors that create a risk state for dementia within the aging brain
- Determine the role of protective factors in lowering the risk of dementia
- Understand how compensatory mechanisms in the brain are impacted by various risk and protective factors for dementia
