Subject: RE: POMP to Go Webinar Series- Nov. 12 & 14

Costas,

Thanks for the info. Things are pretty well here. Charleston VAMC has not stepped up as promised, but I am giving some time before I press.

Hope you are well.

Thanks.

Tony

Tony,
Thought you might be interested in having your staff tune in for the webinars below on monitoring and improving nutrition services performance. Hope all is well.
Costas

Please promote the following free webinar series within your state or territory.

POMP To Go Webinars

What is POMP to Go? POMP stands for Performance Outcomes Measurement Project

Why is performance measurement important for you?

Performance measurement data is useful for:

- Monitoring and improving the quality of services;
- Examining the effect of services on recipients; and
- Providing empirical evidence on which to base program improvements and funding decisions.

But where do you start? What outcomes are you looking for? How do you do it? What does it cost? What does it matter? Join the National Resource Center on Nutrition and Aging for two free webinars:

POMP To Go

Part 1: How to Start Measuring Your Performance?

Date: November 12, 2013

Time: 3:30 p.m. to 4:45 p.m. Eastern
(2:30 p.m. Central / 12:30 p.m. Pacific)

Description

This session will provide an overview of the POMP Toolkit, the tools and procedures as well as examples of how states, area agencies and local service providers have used them. For example, how many people do you need to survey, what methods can be used to survey, and can you do this as a part of your current existing data collection system? There will be time to ask questions about how to apply the tools and procedures to your local situation.

POMP To Go

Part 2: How to Successfully Use Your Data?

Date: November 14, 2013

Time: 3:30 p.m. to 4:45 p.m. Eastern
(2:30 p.m. Central / 12:30 p.m. Pacific)

Description

This session will provide specific examples about how states, area agencies and local service providers have used the information they gathered to improve programming, secure funding, and expand service. There will be an interactive exercise to help you plan your data collection efforts using the POMP toolkit resources along with time for questions and answers.

The Performance Outcomes Measurement Project (POMP) Toolkit provides step-by-step instructions

on how to use the POMP tools and methods and how use the results for program improvement. Funded by the Administration for Community Living (ACL) which includes the Administration on Aging within the U.S. Department of Health and Human Services, tools have been developed for services such as nutrition, transportation, and case management. This tremendous resource is publically available through the POMP website (http://www.aoa.gov/AoAroot/Program_Results/POMP/index.aspx).
