DID YOU KNOW that the ONLY publicly accessible lighthouse in South Carolina can be found at Hunting Island State Park? And not only can you see it, you can climb the 175 steps clear to the top and see for miles and miles! WHAT a view! Check it out and put it on your bucket list!

Donna Ann Brewer Beautiful Views. Spent a wonderful visit there and climbed with a dear friend and his grandchildren. He passed away days later un-expectantly, but those beautiful memories helped me through that tough time. Please if you go to the park take the time to climb the light house...and take your time climbing it.
