Josh,

Just wanted to thank you for our meeting on Monday afternoon. I am attaching an excel spreadsheet that "maps" our strategic goals and objectives to our new proposed budget structure. I did not have Christian's email but please forward to him as well. If either of you have any questions, please let me know.

Also, Mrs. O'Bryon followed up with John Crockett our VP for Engineering concerning First Net. John was appointed to the SC First Net Committee by former DSIT Deputy Director Tom Fletcher (now retired). In his capacity as a committee member, John attended a State and Territory Consultation meeting in Memphis during June, 2013. There is another meeting scheduled for November and ETV looks forward to being part of the initiative to provide emergency responders with the first high-speed, nationwide network dedicated to public safety.
