Now there's an authoritative resource you can turn to for practical help in dealing with cases of financial abuse of the elderly—strategies to support elderly clients, prosecute exploiters, and prevent future victimization. This master reference examines a range of offenses and provides "best-practices" for detecting, investigating, documenting, and prosecuting criminal and civil cases, and recovering stolen assets for victims.

#### **Order today and benefit from the guidance of leading experts:**

- Warning signs an elderly person may be a victim of financial exploitation
- When and how to report suspected cases of exploitation—without harming the victim or hurting the chance of a successful investigation and prosecution
- How to build and present evidence needed to support a case against an exploiter
- When to try a case in criminal court, and when to file a civil action
- Enforcement methods that work—and pass legal scrutiny
- Keys to successful prosecution—even when victims appear to have "aided" their exploiters
- How to seek civil remedies that really benefit victims
- The critical role of Adult Protective Services
- When and how to seek appointment of a guardian ... or to remove a guardian
- Strategies for preventing future exploitation

"Elder abuse is sometimes described as a 'hidden crime' because victims often have limited contact with friends and family, and physical or mental decline can prevent the reporting of abuse. *Financial Exploitation of the Elderly* is a solid addition to the library of any attorney who deals with legal issues involving the elderly. The price is very reasonable, especially given the vast amount of material and additional resources presented." —Review by Camilla Dellinger, Esq. in *The Colorado Lawyer*
