Subject: Weatherization

I need to apply for Weatherization, Power bill assistance and energy efficient appliance assistance. Can you please help me with this please, as I am in a financial hardship and need these things on an emergency basis. If this has to be forwarded to another department Please do so. If you have an application you can send to me with more information please do this. I am also paying for group insurance through my employer and it is another cause of my hardship and I can't cancel this until open enrollment next January, or quit my job. I do not want to quit my job. Please help me and my family.
