Dear Mr. Oswai,

Thank you so much for taking the time to talk with Governor Haley and our South Carolina team during our visit to India. We enjoyed learning about your company and its potential synergies with South Carolina.

**South Carolina is well-positioned and ready for new international business.** South Carolina's unparalleled strategic location allows companies like Michelin, Boeing and BMW to reach the U.S. and North American markets in an efficient and cost-effective manner. It comes as no surprise that this year South Carolina was again ranked the number one state in the U.S. for foreign direct investment, and the number three state in the U.S. for doing business.

The Palmetto State offers many other advantages including:

- a highly talented workforce with one of the nation's fastest growth rates;
- a right-to-work state with one of the lowest unionization rates in the United States;
- a top-ranked worker training program, readySC;

- electric rates 11.3% below the national average; and
- a top-notch infrastructure, including one of the most productive ports in the United States.
