**johnhengkyou** My favorite spot at Dreher Island. Looks even better in the fall. Got a few quick pictures with my dog on that same bridge Nov 2018 and came out great. It's a nice place to paddle/kayak around as well. Google map coordinates for this location is: 34.0847730, -81.4082314

[gkingphotog](#) @michelepriester once you do and get to the end, there's a bench to sit and enjoy the water on.

 [johntengkyou](#) @michelepriester Oh, just type the numbers I gave you (as is, including the comma, negative sign, spaces) in the Google Maps search box and it should show the exact location in the map. Hope that helps 😊
