When I looked at how young our children are in the LBBT community my heart turned to sorrow because I don't think the LBBT community understands that if the law just where grown men can go into bathrooms with little girls how dangerous that law will be for our children. I don't believe that the LBBT community understands that their family members will also be placed in danger, under this law. The United States Constitution promotes equal rights and people.

This means that little girls has the right to use the bathroom with out being afraid a grown man is going to be in the bathroom with them. The same for little boys. Little boys should be able to use the bathroom with out being afraid a woman will be in the bathroom with them. We can tell when a law is not good. That law is bad on both sides. For example when a man changes his body to be a woman there are parts of him that are still a man. And he should use the men

bathroom. And will not give up his Bible Belt, no matter what Satan bring. Years ago he was in the day when Satan showed up bring the lottery to the world. I wrote and begged them to open Easy, not to open that door.

The Little Children and Jesus  
Mark 10:13-16
