Q2. If we can't afford to purchase the Lock Box and related materials, what can we do?

A: Contact your Regional Action Council as they can assist you to identify sources of funding. To find your Regional Action Council, go to the Connecticut Prevention Network at: <http://www.ctprevention.org/> and click on "Find Your Rac"

Q3. What do we need to do to have this initiative in our town?

A: BEFORE YOU MAKE ANY PURCHASES- You need to get authorization from the DEA to securely install the Rx Drop Box inside your Police Dept and you must register with the Dept of Consumer Protection. It is a simple process that is outlined in a Policy and Procedure. To access this information, go to: <http://www.ct.gov/DCP/site/default.asp>. Click on PMP and then scroll down to bottom of page and click on Application and Instructions.

Q4. How much manpower does this take?

A: Every Police Dept that participated in the pilot found that it took very little time to monitor and dispose of the collected medications. The boxes are checked daily (i.e. quick look through the window). When full, collected meds are boxed up and labeled appropriately. The 2 lock system requires that both staff responsible for the keys are present to open and unload the box. One of the staff is the designated person overseeing the evidence.

Q5. Where are the collected medications stored?

A: In the designated evidence room.

Q6. Where do you dispose the collected medications?

A: At the disposal waste sites that Police Depts already use.

Q7. Who takes the collected medications to the waste disposal site?

A: A Police Officer must take the collected Rx medications to the site.

Q8. What is the cost to dispose of these collected medications?

A: Costs vary from \$100.00 to \$500.00/per drop off

Q9. How do Police Departments cover these costs?

A: Options to cover costs have included:

- Coordinating pick up schedules amongst PDs and thereby reducing costs by sharing trips
- Seeking assistance from local groups e.g. Conservation Groups
- Coordinating disposal of collected medications with other already scheduled Dept. trips-
- Contact your Regional Action Council who can assist you to find funding sources. To locate your Regional Action Council, go to <http://www.ctprevention.org/>
