Perfect. In addition, Quentin and I just met with the Lt. Governor to talk about some budget issues. I asked him if he had a problem with us asking you to go ahead and purchase the things you needed for AIM (in salmon on your chart, minus the computer and printer recycling program) out of current funds, either Admin (up to \$10,000?) or the Title 3 monies where appropriate. He is all for it. I know you and Tony would have to figure out on the grant money, and the carry-forward, where those funds would be pulled from, but we feel like getting the system to its best possible as quickly as possible would be a good use of funds. Let me know what you think.

Marie,

Launching October 1 shouldn't be a problem. The process is down to the few final decisions. Rene, Ruchelle, and Anne should be there as it directly impacts their processes.

If you would be available at 2:30, we could discuss organizational structure as well, with the same set of people. We have been brainstorming some potential changes.

Thank you,

-Kevin

Kevin, we talked about 'rolling out' the newly named help desk on October 1<sup>st</sup>. Is that still a reasonable timeframe?

Can we get together one more time to walk through it, and talk about how you will present it to the field? I can do pretty much anytime Monday. Would 3 pm work for you or would morning be better? Also, include anyone you need to, but it appeared to me you had taken the leadership role on this.
