Subject: SC farmers and disaster relief

Brian:

We understand some SC farmers have asked the Gov. Haley to write a letter to congressional leaders asking for some form of disaster relief be put in the federal budget for them in light of crop losses due to the weather in 2015, primarily the flood.

Can you me what the governor's response to that request has been, for attribution in the newspaper, please?  
Writing a story today for Sunday publication about how SC farmers are recovering from the flood.

Even if the response is "no comment," I'd appreciate some form of input on the governor's behalf. Also, didn't she ask for disaster relief for them two years due to rain?

Thanks,  
Roddie
