Dear Governor Haley,

I am contacting you with the confidence that it will be read and taken seriously. It has come to my attention that the BATFE is going to propose a ban on green tip XM855/SS109 5.56x45mm ammunition (the ammo most commonly used in AR-15 series rifle). They are saying that this ammunition is armor piercing and should be banned under the current laws that ban armor piercing handgun ammunition. They are using this law because companies have produced firearms some call AR-15 pistols. The thing is this law wasn't meant to be used in the banning of ammunition used primarily in rifles. Even the senator who wrote the law on armor piercing handgun ammo said this wasn't the way the law is supposed to be taken and rifle ammunition was supposed to be exempted. The BATFE has come out and said they don't care. I urge you, my duly elected and/or appointed officials, to please stop this senseless assault on the peoples second amendment rights so that the right to own a firearm is not made useless by the drastic overreach of the BATFE to try and ban a cheap and affordable ammunition. The BATFE has already done this banning the cheap 7N6 5.45x39 ammunition used in the AK series of rifles. Please do not allow them to further restrict our right than they already have.

Sincerely,
Ausin Page
