SOLUTIONS REQUESTED TO BE INVESTIGATED BY DMV.doc  
County Issuance of Decal - for myrtle beach meeting.ppt

---

Marcia and Jimmy,

I went back to the first meeting we had with the counties and pulled out the issues the county had. I then asked Rolf to provide some details if I didn't know the status.

The document names Marcia's presentation is a summary of the accomplishments. I for one think they're pretty impressive. Feel free to add items as you need to. I did not add any items for which we hadn't come up with a solution, and particularly kept the data issues broad.

*(See attached file: Marcia's 4-30-04 presentation to counties.doc)*

The document entitled **SOLUTIONS REQUESTED TO BE INVESTIGATED BY DMV** is the document I worked from, with the original issues from the March, 2003 meeting and Rolf's responses. Thought you might want some more background information, in case questions are asked.

*(See attached file: SOLUTIONS REQUESTED TO BE INVESTIGATED BY DMV.doc)*

I  
Rolf also forwarded Rob's synopsis of the decal/registration issuance, which I'm also including here. I did not modify that document, but am including it here so everything's in one place.

Let me know if there's anything else I can do to prepare for the meeting. I'll verify with Peggy that the hall of fame building is available May 20.

*(See attached file: County Issuance of Decal - for myrtle beach meeting.ppt)*
