Dear Sir/Madam:

This letter is regarding Mr. Byron Miller. This gentleman has a large hernia in his lumbar region that requires surgery. He was seen at Medical University of South Carolina recently on an urgent basis. The plan is for him to have surgery. Because of this hernia, prior motor vehicle accident causing right pelvic crush injury and continued pain in the right leg and his lower back, he is unable to work and requires assistance to get his urgent medical needs met. He is unable to sit or stand for any length of time, which limits his job prospects.

Please feel free to contact my office for any documents that you need to make your decision regarding Mr. Miller.

Martine Bernard, M.D.
