Subject: Re: Room for Monday

Would 9AM Friday work to check-out the room?

I've reached out to get an answer for you re: parking. The staff would just walk over, but the Gov's protection detail would likely ask for a nearby spot for their use. I'll let you know when I hear back from them. Thanks.

Christian

Christian:

No problem. I'll be in touch. I'm in meetings almost all day tomorrow, but I can either hook you up with our facilities manager or you and I can meet up on Friday to look at the room. Not many meetings for me that day.

One item I might need to start working on now: Will you need parking spaces reserved by our building? If so, how many? I can work with University Parking to handle your needs.

Mike

Sorry I missed your call earlier (endless budget meetings) â€” I just caught your message.

Thanks again for your help with this. I'll likely swing by tomorrow to take a brief look at the room, once you know which one it would be, and provided that works on your end. Thanks again.
