Dear The Honorable Nikki R. Haley:

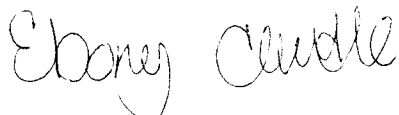

My reason for writing this letter is for South Carolina State University to remain open. I am currently a student at South Carolina State University. My major is Family Consumer Science/Child Development.

I am an uprising senior at my university. As I get excited for my senior year it saddens me to know that I may not graduate from this great institution. I really would like for it to say open. I believe we need a better leadership and we will be a better university in the long run. I chose this college because of family/friends who have come and graduated from here. The things I heard of made me work hard in school to attend this wonderful school.

As I stated above the leadership we have does not work for all that are affected. With time, dedication and hard work I strongly believe can make it and renew ourselves. Also as stated above I would like to join my family/friends to become a graduate from South Carolina State University

Thank you again

Sincerely,
