Subject:

10:15am - Met with Bedingfield. He gave us feedback about caucus. Since they were going to fund this regardless through the budget - he said members were calling leadership's bluff on the reform not being strong enough. That there is an idea for an amendment that addresses their concerns. JTRC back in with the SIB expansion piece.

11:30am - I asked Jimmy and Kenny on the floor if they thought leadership would support an amendment like this. Both said they did not know but they would find out. They asked if the gov would support it...if they leadership got behind it?
I said: I don't know if she would support this amendment.

12:00pm - Kenny and Jimmy tell me Leadership's plan is the following amendment:

- JTRC

- Expansion of SIB (with Gov appointees)

- striking the funding

They would vote on the amendment once the budget passes with the 425M to the department - next Wednesday or Thursday.

They asked if the gov would support this amendment. I said: I would head downstairs and find out.

12:15pm - I inform staff on what the leadership plan is. Called Christy to see there are any concerns with this plan.

At that time
