Thomas Jefferson knew because he himself studied the previous failed attempts at government. He understood actual history, the nature of God, His laws and the nature of man. That happens to be way more than what most understand today.

Jefferson really knew his stuff.

A voice from the past to lead us in the future:

John F. Kennedy held a dinner in the White House for a group of the brightest minds in the nation at that time. He made this statement:

*"This is perhaps
the assembly of the most intelligence ever to gather at one time in the White House with the exception of when Thomas Jefferson dined alone."*

*"When we get piled upon one another in large cities, as in Europe, we shall
become as corrupt as Europe."*

*--
Thomas
Jefferson*

"The democracy will cease to exist when you take away from those who are willing to work and give to those who would not."

*--
Thomas
Jefferson*

"It is incumbent on every generation to pay its own debts as it goes. A principle which if acted on would save one-half the wars of the world."

*--
Thomas
Jefferson*

"I predict future happiness for Americans if they can prevent the government from wasting the labors of the people under the pretense of taking care of them."
