Significant Architectural Features: 1900 Central Hallway house type with a gable-end, standing-seam metal roof and an exterior chimney on the

southeast elevation. The exterior walls are covered in rolled asphalt siding in a brick pattern. The windows were not visible. There is a partial width  
shed roof porch centered on the façade (northeast elevation).

# South Carolina Statewide Survey of Historic Properties

## Intensive Survey Form

Site No.: 3839

Alterations: The porch has been enclosed and there is a gable-el addition on the rear of the house and a one-room addition on the northwest elevation.
