

January 6, 2017

Attention Governor Haley,

I am writing in regards to the current updates on 12-16-16 pertaining to the Deer Hunting With Dogs bill and asking you to give this your immediate attention. By signing this into law, my hope is that this will solve an ongoing problem that I have faced for many years. Lately this problem has escalated into a serious matter with dog hunters roaming freely over my property. There has been an incident of a vehicle on the road having his window shot out with people inside. As our area population continues to grow with expanded housing, something has to change for the safety of all. I appreciate your prompt attention to this extremely important matter.

Sincerely,

Pam James
