ACL Announces Awardees for the 2014 Lifespan Respite Care Program

ACL is pleased to announce awards totaling \$2,023,646 to 17 states to further implement the requirements of the Lifespan Respite Care Act of 2006.

Lifespan Respite Care Programs are coordinated systems of accessible, community-based respite care services for family caregivers of children or adults with special needs. They bring together federal, state, and local resources and funding streams to help support, expand, and streamline the delivery of planned and emergency respite services. Additionally, such programs provide for the recruitment and training of respite care providers, caregiver education, training and empowerment, and the provision of gap-filling respite services.
