**Subject:** ePrint Job Received

---

Thank you for using HP's ePrint service. Your print job has been received and prepared for printing. If the job does not print, make sure:

1. The printer's email address was entered correctly
2. The printer is online
3. You have permission to use the printer
4. Total size of all attachments does not exceed 10MB
5. Total of 10 attachments or less

Please note that a print job might be delayed by slow email delivery or a slow Internet connection. For additional ePrint troubleshooting information, see this support page: [www.hp.com/go/eprinthehelp](http://www.hp.com/go/eprinthehelp) HP Connected account owners can turn off ePrint job status emails at [www.hpconnected.com](http://www.hpconnected.com). NOTE: HP Connected is not available in all regions. Sign into your account at [www.hpconnected.com](http://www.hpconnected.com), select the "Settings" button for your printer on the Devices tab, enable the "Allowed Senders Only" option in printer settings, and remove the checkmark from "Enable email notifications for ePrint activity" option. NOTE: This option is not available in regions where HP Connected is not available.
