Ready to speed up investigations and stay ahead of attacks?

Register Now

Time is of the essence when you're investigating security incidents.

When you come across a domain, IP, or file hash during investigations, you need to answer dozens of questions ASAP. And you probably need to go to multiple sources and manually piece the puzzle together. What if you had a single, correlated source of intelligence instead?

Join us for a technical demo that will show you how you can have real time answers to the hard questions:

- Is this malicious? What's known about it?
- What other domains, IPs, or file hashes are related?
- Is this a widespread threat of more targeted?

Title: The Holy Grail of Incident Response: A Single, Correlated Source of Intelligence About Domains, IPs, and Malware Files

Date: Wednesday Aug 17th, 2016 11am PT / 2pm ET

Best,
