Re: Mudville Site Phase I CRS
Berkeley County, South Carolina
SHPO Project No. 18-KL0021

Dear William Green:

Our office received documentation on April 26, 2018 that you submitted under the Department of Commerce Site Certification program for the tract referenced above. This letter is for informational purposes only and constitutes our office's coordination under the 2014 Memorandum of Understanding (MOU) with the South Carolina Department of Commerce. This letter is not a result of consultation under Section 106 of the National Historic Preservation Act or under any pertinent state law.

The cultural resources survey provided meets the requirements of the MOU. The intensive cultural resources survey investigated approximately 196 acres at the Mudville Site following the recommendation by our Office in a letter dated February 20, 2018 regarding the Cultural Resources Identification Survey (CRIS) (Higgins et al. 2017). Additionally, the above-ground resource identified as M-1 in the CRIS was assigned SHPO Site No. 1276. SHPO Site No. 1276 is recommended as not eligible for listing in the National Register of Historic Places (NRHP). Our office concurs with this recommendation. As a result of the survey, no additional archaeological sites or above-ground resources were identified.

If the Mudville Site were to require state permits or federal permits, licenses, funds, loans, grants, or assistance for development, we would recommend to the federal or state agency or agencies that:

- Additional cultural resources/historic property investigations **are not** needed.

The agency will determine if a reasonable and good faith effort has been made to identify historic properties or whether additional identification efforts are needed.

Project Review Forms and additional guidance regarding our office's role in the federal and state compliance process and historic preservation can be found on our website at <http://shpo.sc.gov/programs/revcomp>.

Our office accepts the report as final. In accordance with the MOU, please provide two bound copies of

the final report to the DOC and one unbound, and one digital (PDF) copy of the final report to SHPO.

Please provide GIS shapefiles for the surveyed area. Shapefiles should be compatible with ArcGIS (.shp file format) and should be sent as a bundle in .zip format. Please see our GIS Data Submission Requirements and shapefile templates that are available in the left side bar on the following webpage <http://shpo.sc.gov/research/Pages/ArchSite.aspx>. SHPO recommends e-mailing the shapefiles to the address link on the noted webpage or using a File Transfer Protocol website such as WeTransfer.com to send large files.

Please also provide an electronic PDF copy of the architectural survey form. The photographs can be provided as JPEG files, labeled by their SHPO Site Number, or they can be provided as imbedded images on the survey form PDFs and/or a continuation sheet.

Please refer to SHPO Project Number 18-KL0021 in any future correspondence regarding this project. If you have any questions, please contact me at 803-896-6181 or at KLewis@scdah.sc.gov.

Sincerely,

Keely Lewis
Archaeologist
State Historic Preservation Office
