---

Good Afternoon Ashlie,

Those spots are usually used by the Lieutenant Governor's Security detail. In the fall they are usually in Columbia a lot less but that depends on what is occurring. I am copying the head of the detail Jeremy Weis (SLED) to provide his input.

My thought would be that so long as they have one assigned spot in the garage that would allow them to bring the Lieutenant Governor into the building without going outside then we are probably fine for the fall.

Jeremy, for your reference, the parking spots Ashlie is referring to are the one on G1 by the blue ramp and the one on G1.5 with the sign for the LG and near the elevator.

*Best Regards,

Catherine, I left you a voicemail but also wanted to follow-up with an email. We are going to be replacing the State House escalators between August 1 and November 1 and will have to displace some parking in the McEachern garage during that time. Two of the impacted spaces are generically assigned to the Lt. Governor's office - #198 and 787. Do you know how often you all utilize those spaces and if you would need them during the referenced time frame?  
Ashlie
