Subject: How cities are outsmarting criminals / Apps, farmers and food / Raising the smart grid bar

WELCOME TO SMART CITIES NOW

Updates on smart city progress around the globe

NEWS & TRENDS

Predictive policing success stories: One big city just had its first day without serious crime. Others are watching their crime rates decline by double digits. See how officer-inspired predictive policing technology from Microsoft is helping cities become safer without straining their budgets. [MORE >>](#)

How apps help feed China's masses: With the world's largest population, there's considerable pressure on Chinese farmers to produce. And China isn't alone. As city populations elsewhere in the world surge, efficient food production is essential. See how apps built with technology from IBM are helping Chinese farmers use land to its full potential. [MORE >>](#)

PILOTS & PROJECTS

Raising the smart grid bar: Hawaii Electric Co. is credited with driving one of the industry's most ambitious smart grid deployments and unlocking real value for its customers. Silver Spring Networks says HEC is demonstrating "the utility model of the future." If you're unsure how a smarter grid can benefit your city, read this story. [MORE >>](#)

Renewables vs. grid stability: California utilities face a looming deadline to produce one-third of the state's electricity using renewable generation sources, which is generating concern about the stability of the state's electric grid. Learn how a successful S&C microgrid pilot manages to keep the power on. [MORE >>](#)

Ready to jumpstart your open data initiative? Get the Guide!

The good news for cities just beginning the open data conversation is that today a full arsenal of lessons learned and best practices from cities that blazed the open data trail is now available. We've packaged much of it up in our Smart Cities Open Data Guide -- a hands-on primer tailor-made for city open data advocates. [Download your copy >>](#)
