

notes for governor edwards S.C. Developmental Disabilities council

APRIL 12, 1976

---Pleased that each of you have offered your time to help solve the problems of the developmentally disabled in our state.

---This area is of great concern to me and our administration.

---Your role is to advise the governor on the needs of the people you serve, but at the same time, I hope to give you some ideas as to the kinds of programs we feel would be best for the state.

I hope that each of you will take this great responsibility seriously and give all you can to help in this area.

---In the days ahead I will need your guidance in planning of advocacy grants to this council. These are important to the future of our programs.

---Thank you for your dedication and I look forward to working with the council.
