Hello, I am currently a resident of Pickens sc and have witnessed a great injustice! Me and my husband had to appear in family court recently for my sons compulsory attendance record! The trial and I use that word loosely was held on June 1st of this year. We thought it would be a simple reprimand because other than said reason we have lived beyond reproach! We have never been in trouble and never been on or needed government assistant, however obviously judge Alvin Johnson in his superior authority thought better! He did put my son on contract along with another ladies children! There were many people there that day and at least 3 I know for the same reason! However he called US and her in together her situation from what I heard was much worse than ours; nevertheless he ordered a cps investigation after he had asked why we didn't have or want government assistant! I was completely taken aback!! the so called investigator was in the room the whole time and when he told us to wait so we could be seen by her my husband had lost a half day of work! I very politely asked her if my husband could go to work and she had the audacity to say if he leaves your child goes into foster care!! We have now been indicated for educational neglect when we weren't even investigated let alone given opportunity to breach said contract because it's summer! I've been outspoken with my sons teachers especially this year! He has come home crying many days because of his teachers! So it's not that I just don't care and to call me negligent and order parenting classes is enough to make my blood boil! All I'm asking is for is the opportunity to show cause that I neglect my children! Oh yea I have another son they decided that they had say over!! I'm sorry if this is a crazy email, I've told this story at least 3 times today not to count how many other times! Restore my faith in our republic please don't allow such an injustice all in the name of the greater good I beg u if I must I'll get a lawyer, but would that not be adding insult to injury especially if judge Johnson is the presiding judge! How could we find justice?! U have the power to save innocent people from arbitrary government intrusions such as this and I beg u to suffer me and mine! God bless u and yours! Post script I'm not going to proof read I'm afraid I'll change my mind lol please disregard any mistakes
