Governor Haley,

I just saw another one of your campaign commercials. Again you talk about how much you care about jobs in SC. Last month I faxed you a request for an interview for a job with the state of SC. I received no reply from you even though my situation was in dire straits. It seems all you have been doing lately is campaigning for re-election. It must be nice to collect a paycheck from the tax payers and spend all your time begging to be re-elected.

I have been a registered republican for more than 30 years. I can assure you that you will not get my vote. In fact I will do everything I can to change the minds of those that I influence.

If you care as much as you say you do then I would have gotten a response from you regarding my first letter. The person who answered your office phone gave me your personal fax number, therefore I know you received it. If not I will give you her name and you can take action because she gave wrong information to a SC citizen. Why do you have a personal fax if you don't respond to your faxes? Or is it for your personal friends and contacts. REMEMBER you work for ALL of us, not just the ones you pick and choose to work for. If I don't hear from by the end of this week I am going to take my story to the news and let the public decide how much you really care.

It sickens me that all the smiles you portray appear to be fake and self-serving to you and you only.

Regrettably,

Ed Magaruh
