Say hello to our overnight guest at the Animal Forest at Charles Towne Landing. This six week-old Great Horned Owl was recently rescued from the water at the old Navy base in Charleston. Our friend, Craig Watson from the U.S. Fish and Wildlife Service, asked us to keep the owl until the Center for Birds of Prey in Awendaw could evaluate the animal. The center hopes to place it with another owl family in the wild once it is evaluated.

Tammy Rutledge Smith I am chaperoning a class to charles towne landing next Wednesday!
