Subject: need your help

---

Dear Lt Governor, I have lost my job because my Diabetes requires the use of insulin so because of losing my CDL I can't drive. I have been driving and working with children for 34 years. I chose to drive because I love doing it. Please work on changing the CDL law so I can provide for my family. Drivers are in a short supply and I feel I was discriminated against because of having this disease. Please help me. God Bless Wayne Orr
