32 standards, assessments, accountability, the needs of low-performing schools, and  
33 other educational needs of students; and

34 “(iii) approve a State plan within 45 days of its submission unless the Secretary  
35 presents a body of substantial, high-quality education research that clearly  
36 demonstrates that the State’s plan does not meet the requirements of this section  
37 and is likely to be ineffective or is inappropriate for its intended purposes.

38 “(B) PURPOSE OF PEER REVIEW.—The peer review process shall be designed to—

1                   “(i) promote effective implementation of State-developed challenging academic  
2 standards through State and local innovation; and

19                   “(E) conduct a public hearing within 30 days of such resubmission, with public  
20 notice provided not less than 15 days before such hearing.

21                   “(5) STATE PLAN DISAPPROVAL.—The Secretary shall have the authority to disapprove a

25                   “(B) the State revises and resubmits a plan that the Secretary determines does not  
26 meet the requirements of this part after a hearing conducted under paragraph (4)(E).

27                   “(6) LIMITATIONS.—The Secretary shall not have the authority to require a State, as a  
28 condition of approval of the State plan, to—

30 academic content standards or academic achievement standards;

31                   “(B) use specific academic assessment instruments or items;

32                   “(C) include in, or delete from, such a plan any criterion that specifies, defines, or

34 establish, implement, or improve—

35                   “(i) State standards;

36                   “(ii) assessments;

37                   “(iii) State accountability systems;

38                   “(iv) systems that measure student growth;

1                   “(v) measures of other academic indicators; or  
2                   “(vi) teacher and principal evaluation systems; or  
3                   “(D) require the collection, publication, or transmission to the Department of  
4                   individual student data that is not expressly required to be collected under this Act.

5                   “(7) PUBLIC REVIEW.—All written communications, feedback, and notifications under

19                  “(B) ADDITIONAL INFORMATION.—A State shall notify the Secretary if a State makes  
20                  significant changes to its plan, such as the adoption of new State academic content  
21                  standards, State academic achievement standards, new academic assessments, or  
22                  changes to its accountability system under subsection (b)(3).

23                  “(9) FAILURE TO MEET REQUIREMENTS.—If a State fails to meet any of the requirements  
24                  of this section, then the Secretary may withhold funds for State administration under this  
25                  part until the Secretary determines that the State has fulfilled those requirements.

26                  “(b) Academic Standards, Academic Assessments, and State Accountability Systems.—

27                  “(1) CHALLENGING STATE ACADEMIC STANDARDS.—

28                         “(A) IN GENERAL.—Each State shall provide an assurance that the State has adopted  
29                         challenging academic content standards and student academic achievement standards  
30                         that will be used by the State, its local educational agencies, and its schools to carry out  
31                         this part.

32                         “(B) SAME STANDARDS.—The standards required by subparagraph (A) shall be the  
33                         same standards that the State applies to all public schools and public school children in  
34                         the State.

35                         “(C) SUBJECTS.—The State shall have such standards in mathematics, reading or  
36                         language arts, and science, and any other subjects as determined by the State, which  
37                         shall include the same knowledge, skills, and levels of achievement expected of all  
38                         children in the State.

1           “(D) ALIGNMENT.—Each State shall provide an assurance to the Secretary that the  
2 State’s challenging academic content standards are aligned with—

3           “(i) entrance requirements, without the need for academic remediation, for an  
4 institution of higher education in the State; and

5           “(ii) State performance measures identified in the State plan under section  
6 113(b) of the Carl D. Perkins Career and Technical Education Act of 2006.

7           “(E) ALTERNATE ACADEMIC ACHIEVEMENT STANDARDS.—Notwithstanding any other  
8 provision of this paragraph, a State may, through a documented and validated  
9 standards-setting process, adopt alternate academic achievement standards for students  
10 with the most significant cognitive disabilities who take an alternate assessment,  
11 provided those standards—

12           “(i) are aligned with the State’s challenging academic content standards under  
13 subparagraph (A);

14           “(ii) promote access to the general curriculum; and

15           “(iii) reflect professional judgment of the highest achievement standards  
16 attainable by those students.

17           “(F) MODIFIED ACADEMIC ACHIEVEMENT STANDARDS.—Notwithstanding any other  
18 provision of this paragraph, a State may, through a documented and validated  
19 standards-setting process, adopt modified academic achievement standards for students  
20 who have disabilities that preclude them from meeting State student achievement  
21 standards within the academic year covered by a student’s individualized education  
22 program under section 614(d) of the Individuals with Disabilities Education Act,  
23 provided those standards—

24           “(i) are aligned with the State’s challenging academic content standards under  
25 subparagraph (A) for the grade in which the student is enrolled; and

26           “(ii) are challenging for such eligible students, but may be less difficult than the  
27 grade-level academic achievement standards under this section.

28           “(G) ENGLISH LANGUAGE PROFICIENCY STANDARDS.—Each State plan shall provide  
29 an assurance that the State has adopted English language proficiency standards that are  
30 aligned with the State’s challenging academic content standards under subparagraph  
31 (A). Such standards shall—

32           “(i) ensure proficiency in each of the domains of speaking, listening, reading,  
33 and writing;

34           “(ii) address the different proficiency levels of English language learners; and

35           “(iii) be aligned with the State’s academic content standards in reading or  
36 language arts so that achieving proficiency against the State’s English language  
37 proficiency standards indicates a sufficient knowledge of English to measure  
38 validly and reliably the student’s achievement on the State’s reading or language  
39 arts standards.

40           “(H) PROHIBITIONS.—

1           “(i) STANDARDS REVIEW OR APPROVAL.—A State shall not be required to  
2 submit any standards developed under this subsection for academic content or  
3 student academic achievement to the Secretary for review or approval.

4           “(ii) FEDERAL CONTROL.—The Secretary shall not have the authority to  
5 mandate, direct, control, or exercise any direction or supervision over the  
6 academic content standards or academic achievement standards adopted or  
7 implemented by a State.

8           “(I) EXISTING STANDARDS.—Nothing in this part shall prohibit a State from revising,  
9 consistent with this section, any standard adopted under this part before or after the  
10 date of enactment of the Every Child Ready for College or Career Act of 2013.

11       “(2) ACADEMIC ASSESSMENTS.—

12           “(A) IN GENERAL.—Each State plan shall provide an assurance that the State  
13 educational agency, in consultation with local educational agencies, has implemented a  
14 set of high-quality, yearly student academic assessments that include, at a minimum,  
15 academic assessments in mathematics and reading or language arts that will be used as  
16 the primary means of determining the yearly performance of each school in the State in  
17 enabling all children to meet the State’s challenging student academic achievement  
18 standards.

19           “(B) REQUIREMENTS.—Each State plan shall provide an assurance that such  
20 assessments—

21           “(i) are the same academic assessments used to measure the achievement of all  
22 students;

23           “(ii) are aligned with the State’s challenging academic content and student  
24 academic achievement standards, and provide coherent information about student  
25 attainment of such standards;

26           “(iii) are used for purposes for which such assessments are valid and reliable,  
27 be of adequate technical quality for each purpose required under this Act, and be  
28 consistent with relevant, nationally recognized professional and technical  
29 standards;

30           “(iv)(I) measure the annual academic achievement of all students against the  
31 State’s challenging academic achievement standards in mathematics and reading  
32 or language arts, and be administered—

33           “(aa) in each of grades 3 through 8; and

34           “(bb) at least once in grades 9 through 12; and

35           “(II) measure the academic achievement of all students against the State’s  
36 challenging academic achievement standards in science, and be administered not  
37 less than one time, during—

38           “(aa) grades 3 through 5;

39           “(bb) grades 6 through 8; and

40           “(cc) grades 9 through 12;

1 “(v) involve multiple up-to-date measures of student academic achievement;

2 “(vi) provide for—

3 “(I) the participation in such assessments of all students;

4 “(II) the reasonable adaptations and accommodations for children with  
5 disabilities (as defined in section 602(3) of the Individuals with Disabilities  
6 Education Act) necessary to measure the academic achievement of such  
7 children relative to State academic content and student academic  
8 achievement standards;

9 “(III) alternate assessments aligned with grade-level academic content and  
10 academic achievement standards, unless the State develops alternate  
11 assessments aligned with—

12 “(aa) alternate academic achievement standards, consistent with  
13 subparagraph (C), for students with the most significant cognitive  
14 disabilities; or

15 “(bb) modified academic achievement standards consistent with  
16 subparagraph (C); and

17 “(IV) the inclusion of English language learners, who shall be assessed in  
18 a valid and reliable manner and provided reasonable accommodations on  
19 assessments administered to such students under this paragraph, including, to  
20 the extent practicable, assessments in the language and form most likely to  
21 yield accurate data on what such students know and can do in academic  
22 content areas, until such students have achieved English language  
23 proficiency, as determined under paragraph (1)(G);

24 “(vii) produce individual student interpretive, descriptive, and diagnostic  
25 reports, consistent with clause (iii), that allow parents, teachers, and principals to  
26 understand and address the specific academic needs of students, and include  
27 information regarding achievement on academic assessments, and that are  
28 provided to parents, teachers, and principals in a timely manner after the  
29 assessment is given, in an understandable and uniform format; and

30 “(viii) enable results to be disaggregated within each State, local educational  
31 agency, and school, by—

32 “(I) each major racial and ethnic group;

33 “(II) economically disadvantaged students as compared to students who  
34 are not economically disadvantaged;

35 “(III) students with disabilities as compared to nondisabled students;

36 “(IV) English proficiency status;

37 “(V) gender; and

38 “(VI) migrant status.

39 “(C) STUDENTS WITH DISABILITIES.—

1 “(i) ALTERNATE STANDARDS.—A State may provide for alternate assessments  
2 aligned with alternate academic achievement standards for students with the most  
3 significant cognitive disabilities, if the State—

4 “(I) establishes and monitors implementation of clear and appropriate  
5 guidelines for individualized education program teams (as defined in section  
6 614(d)(1)(B) of the Individuals with Disabilities Education Act) (referred to  
7 in this section as ‘IEP Teams’) to apply in determining when a child’s  
8 significant cognitive disability justifies assessment based on alternate  
9 academic achievement standards;

10 “(II) ensures that the parents of those students are informed that their  
11 child’s academic achievement will be based on alternate academic  
12 achievement standards;

13 “(III) documents that students with the most significant cognitive  
14 disabilities are, to the extent practicable, included in the general curriculum,  
15 and in assessments aligned with that curriculum;

16 “(IV) develops, disseminates information on, and promotes the use of  
17 appropriate accommodations to increase the number of students with  
18 disabilities who are tested against academic achievement standards for the  
19 grade in which a student is enrolled; and

20 “(V) ensures that regular and special education teachers and other  
21 appropriate staff know how to administer assessments, including making  
22 appropriate use of accommodations, for students with disabilities.

23 “(ii) MODIFIED STANDARDS.—A State may assess students with disabilities  
24 based on modified academic achievement standards, if the State—

25 “(I) establishes and ensures implementation of clear and appropriate  
26 guidelines for IEP Teams to apply in determining which students with  
27 disabilities are eligible to be assessed based on modified academic  
28 achievement standards, which criteria, at a minimum, shall include—

29 “(aa) whether the student’s disability has precluded the student from  
30 achieving grade-level proficiency, as demonstrated by objective  
31 evidence, such as the student’s performance on the State’s regular  
32 assessments or on other assessments that can validly demonstrate  
33 academic achievement; and

34 “(bb) whether the student’s progress in response to appropriate  
35 instruction, including special education and related services designed to  
36 address the student’s individual needs, is such that, even if significant  
37 growth occurs, the IEP Team is reasonably certain that the student will  
38 not achieve to grade-level within the year covered by the IEP, which  
39 progress shall be based on multiple measurements, over a period of  
40 time, that are valid for the subjects being assessed;

41 “(II) ensures that, if a student’s IEP includes goals for a subject assessed  
42 based on modified academic achievement standards, those goals are based on

1 academic content standards for the grade in which the student is enrolled;

2 “(III) ensures that parents of students with disabilities who are assessed  
3 against modified academic achievement standards are informed that their  
4 child’s achievement will be measured based on modified academic  
5 achievement standards;

6 “(IV) ensures that the alternate assessment yields results that measure the  
7 achievement of those students separately in reading or language arts,  
8 mathematics, and science relative to the modified academic achievement  
9 standards;

10 “(V) ensures that students who are assessed based on modified academic  
11 achievement standards have access to the curriculum, including instruction,  
12 for the grade in which the students are enrolled; and

13 “(VI) establishes and monitors implementation of clear and appropriate  
14 guidelines for IEP Teams to apply in developing and implementing IEPs for  
15 students who are assessed based on modified academic achievement  
16 standards.

17 “(D) LANGUAGE ASSESSMENTS.—Each State plan shall identify the languages other  
18 than English that are present to a significant extent in the participating student  
19 population and indicate the languages for which yearly student academic assessments  
20 are not available and are needed, and such State shall make every effort to develop  
21 such assessments as are necessary.

22 “(E) ASSESSMENTS OF ENGLISH LANGUAGE PROFICIENCY.—Each State plan shall  
23 provide an assurance that local educational agencies in the State will provide for an  
24 annual assessment of English proficiency (measuring students’ speaking, listening,  
25 reading, and writing skills in English) of all English language learners in the schools  
26 served by the State educational agency, except that each local educational agency shall  
27 have discretion to exempt any student who has been assessed as proficient in listening,  
28 speaking, reading, or writing English from the corresponding portion of the  
29 assessment.

30 “(F) DEFERRAL.—A State may defer the commencement, or suspend the  
31 administration, but not cease the development, of the assessments described in this  
32 paragraph, for 1 year for each year for which the amount appropriated for grants under  
33 part B is less than \$368,900,000.

34 “(G) CONSTRUCTION.—Nothing in this paragraph shall be construed to prescribe or  
35 prohibit the use of the academic assessments described in this part for student  
36 promotion or graduation purposes.

37 “(3) STATE ACCOUNTABILITY SYSTEM.—

38 “(A) IN GENERAL.—Each State plan shall provide an assurance that the State has  
39 developed and is implementing a single, statewide State accountability system that will  
40 be based on the challenging academic content standards and student academic  
41 achievement standards adopted by the State, and other academic indicators related to  
42 student achievement identified by the State, to ensure that all students graduate from

1 high school prepared for postsecondary education or the workforce without the need  
2 for remediation and that, at a minimum—

3 “(i) annually measures academic achievement of all public school students in  
4 the State towards meeting the State’s challenging academic achievement  
5 standards established by the State in mathematics and reading or language arts,  
6 which may include measures of student growth to such standards and any other  
7 valid and reliable academic indicators related to student achievement;

8 “(ii) establishes a system of annually identifying and differentiating among all  
9 public schools in the State based on student academic achievement and any other  
10 factors determined appropriate by the State and also takes into account—

11 “(I) achievement gaps between each category of students described in  
12 subclauses (I) through (IV) of paragraph (2)(B)(viii);

13 “(II) overall performance of all students and of each category of students  
14 described in subclauses (I) through (IV) of paragraph (2)(B)(viii); and

15 “(III) secondary school graduation rates, as appropriate;

16 “(iii) for public schools participating under this part, includes a system for  
17 annually—

18 “(I) identifying such schools that are in need of strategies for improving  
19 student academic achievement and any other measures determined  
20 appropriate by the State; and

21 “(II) providing assistance to local educational agencies to develop and  
22 implement appropriate strategies for improving identified schools;

23 “(iv) provides a clear and understandable explanation of the method of  
24 identifying schools under clause (iii);

25 “(v) measures the annual progress of not less than 95 percent of each category  
26 of students described in subclauses (I) through (IV) of paragraph (2)(B)(viii) who  
27 are enrolled in the school and are required to take the assessments under  
28 paragraph (2); and

29 “(vi) measures the high school graduation rate for each category of students  
30 described in subclauses (I) through (IV) of paragraph (2)(B)(viii).

31 “(B) PROHIBITION ON REGULATION.—Nothing in this subsection shall be construed  
32 to permit the Secretary to establish any criterion that specifies, defines, or prescribes  
33 the standards or measures that State or local educational agencies use to establish,  
34 implement, or improve—

35 “(i) State standards;

36 “(ii) assessments;

37 “(iii) State accountability systems;

38 “(iv) systems that measure student growth;

39 “(v) measures of other academic indicators; or

1 “(vi) teacher and principal evaluation systems.

2 “(c) Provisions to Support Teaching and Learning.—Each State plan shall provide an  
3 assurance that—

4 “(1) the State will notify local educational agencies, schools, teachers, parents, and the  
5 public of the academic content standards, student academic achievement standards,  
6 academic assessments, and State accountability system, developed under this section;

7 “(2) the State educational agency will assist each local educational agency and school  
8 affected by the State plan to meet the requirements of this part; and

9 “(3) low-income and minority children, enrolled in schools assisted under this part, are  
10 served by effective teachers and principals and have access to a high-quality instructional  
11 program in the core academic subjects, and the State shall adopt measures to evaluate and  
12 publicly report the progress of the State educational agency with respect to such steps.

13 “(d) Other Assurances.—Each State plan shall contain an assurance that—

14 “(1) the State will participate in biennial State academic assessments of 4th and 8th grade  
15 reading and mathematics under the National Assessment of Educational Progress carried  
16 out under section 303(b)(3) of the National Assessment of Educational Progress  
17 Authorization Act if the Secretary pays the costs of administering such assessments;

18 “(2) the State educational agency will modify or eliminate State fiscal and accounting  
19 barriers so that schools can easily consolidate funds from other Federal, State, and local  
20 sources in order to improve educational opportunities and reduce unnecessary fiscal and  
21 accounting requirements;

22 “(3) the State educational agency will support the collection and dissemination to local  
23 educational agencies and schools of effective parental involvement practices;

24 “(4) the State educational agency will provide the least restrictive and burdensome  
25 regulations for local educational agencies and individual schools participating in a program  
26 assisted under this part;

27 “(5) the State educational agency will ensure that local educational agencies, to the extent  
28 feasible, in developing and implementing programs under this part, will work in  
29 consultation with outside intermediary organizations or individuals who have expertise in  
30 using strategies and programs based on scientifically valid research to improve teaching,  
31 learning, and schools; and

32 “(6) the State educational agency has appropriate procedures and safeguards in place to  
33 ensure the validity of the assessment process.

34 “(e) Reports.—

35 “(1) ANNUAL STATE REPORT CARD.—

36 “(A) IN GENERAL.—A State that receives assistance under this part shall prepare and  
37 disseminate widely to the public an annual State report card.

38 “(B) IMPLEMENTATION.—The State report card shall be—

39 “(i) concise; and

1                   “(ii) presented in an understandable and uniform format.

2                   “(C) REQUIRED INFORMATION.—The State shall include in its annual State report  
3 card—

4                   “(i) information, in the aggregate, on student achievement on the State
