Vestige GL300VC Specification Details.pdf

---

I hope everyone enjoyed time with family and friends over the holiday's. As we kickoff 2016 I wanted to pass along the Q1 government promotions being offered through Verizon Wireless.

Besides the Q1 promotions I have also included information on the Vestige Asset Tracker. This water resistant device is a powerful locator designed for lone worker, vehicle, pet and any asset tracking. The thumb sized button makes this device ideal for applications requiring rapid notification of emergency alert or regular geo-fences based on current location.

Let me know if you have any questions or would like to set up a time to discuss further.
