

Greeting, Governor Nikki Haley

I'm writing this Requested letter to you in regard to my Parole Hearing. I know and understand that there is no guaranteed in my Parole Consideration. But Governor Haley I need to be free with my family. My Dad is sick, He Done Had 2 strokes within the last 2 Years. My mom is struggling with my younger siblings and Grandkids. My mom and Dad are in there mid 60's and there are not getting younger. I Plead for Your Assistance if possible in helping ^{me} make Parole. I Go up in the next month or so. I've been Incarcerated for 20 Years. I been up for Parole 6 times. I Got about 20 months to max-out. I've Got an my G.E.D., Work Keys, Carpentry Dsha, Barber Shop, man to man, Substance Abuse, Certificate. I Also was in Camp Start and Celebrate Recovery.

I mean I'm not saying I was Always a Saint but I have made strides in getting tools that will help me when I Get out of Prison. It's just time is not on my side right now. I Don't want my Dad to Die while I'm in Prison and I want even be able to Go to the funeral, now that's sad. I've already lost 3 of my Grandparents while I been in prison and it hurt me. My family and their well being is all I think about now. Especially now that I'm more ~~more~~ mature and ~~more~~ family oriented. I was 19 years old when I Got lock-up, I'm now 40 years old. I've also been Involve with a Project from the street, Call Save our children Project. It's where me and other inmates have did 30 days Journals and written letters to kids who are going down the wrong Road. So we are giving them our life's story from behind these walls so they can see, read, and know that Prison is not a Game nor is it fun. Me I want to further my Involvement in help mentoring the Youth. I look at the News, Read the News ~~paper~~ Paper, and also see how young these Guys are coming to Prison, that it hurt my heart for real. I want to help make a change in these young people's lives. I Don't want to be part of the problem, I want to be part of the solution. Governor Haley

we are already having enough problem abroad over seas with "Isis" we need to come together and unite to help make our homes more safe. So we have to start at home. And it start with us. Especially in the Black community, there are no father figures

to Guide the Youth So they feel ~~the~~ ^{they} only thing ^{now} is what they
See Around them, which is violence, Drugs, robbery, murders etc. Etc.
Im tired of reading or seeing in the news that Another Black man has
killed Another Blackman, This is not righteousness. This is Genocide.
Governor Haley Im Also now ~~in~~ a very Political Person. Im not Republican
Nor Democrat. Im A Independent. I see things from the middle. I
Agree with Both Party on Certain Issue. like when You was Cameraman
And Your Re-election, I would have voted for You because You was strong.
on Jobs And Getting people off Government assistance. Im All about Prosperity
And Growing our State, Country, And our Economy AS A whole. we are
suppose to be the Strongest Nation on Earth, so why Arent we acting
like it. I want to change the Status Quo, with people like me coming
out of ~~a~~ prison And people Always think the worst, because of
there Past. This is why I been Self Educating myself to better the
condition of people in prison. You have alot of talent in prison, alot of us
just Did not use our Head for the right Purpose. Governor Haley
I Ask You A Person in need of help to Give me Assistance in being
Free. I'll be A Spokesperson for the ~~black~~ Youth, Help in Community where
help is needed. ~~I~~ MY Goal is to make myself A Better Person and
Everyone Around me. And This is the Honest God truth. Just help
Give me A chance so I can Show -o- Prove. Because "Action Speak
Louder than words" Even If You Can not help me And I still
have to max-out. Im still Going to Do what I Set out to Do.
Someone has to change the Status Quo, And I Plan on being part of
the change. This is real change we can believe in. Not what "Obama
said." I would Greatly Appreciate Your Concern in this matter
And to make my wish A reality.

Sincerely,

Jeromaine D. Miles #
