I'm signing because Makenzie was taken from her parents due to not understanding metabolic bone disease and infantile rickets, an invisible illness.

As a medical doctor, I have run several ERs. As a mandatory Reporter, I have reported suspicious findings in children. But this is not abuse. It is a case of Invisible Illnesses, something that doctors do not receive adequate education in. So I started another petition, asking the American Medical Association, the

National Board of Medical Examiners, and several other VIPs in USA Health Care to mandate that every doctor be re-educated on Invisible Illnesses. Look at the damage done in this one case. It happens tens of thousands of times in the USA. It frustrates both doctor and patient, who search for a diagnosis they have never heard of...and doctors seem to have an attitude of "If I didn't learn about it, then it doesn't exist." Time to keep up with the times. We need to CHANGE this, NOW!
