Subject: Time Sensitive from Christina Cleveland at the Aiken Standard

Hey Chaney,

Christina from the Aiken Standard here.

Reaching out to the governor for a statement on S. 1203 filed yesterday – the bill that would give prevent local governments from enacting laws/ordinances that would require businesses to let transgender people use the restroom of their choice.

Has the governor taken a position on this issue yet, given that a similar bill passed in North Carolina has had negative economic impacts for that state. For instance, PayPal recently announcing it would cancel plans to expand in North Carolina.
